2019 Sponsorship Information

TED celebrates the gift of human imagination.

TEDxIndianapolis is a cross-pollinating conference featuring local and national speakers; passionate, unique, and captivating people with big ideas from the fields of technology, education, art & design, and more.

The theme of this year's licensed TEDx event is *sight*. This year's TEDxIndianapolis event will feature nine speakers and three performances for the Indianapolis audience. TEDxIndianapolis will celebrate and explore how dynamic and diverse people see the world from their own unique perspective, and the importance of sharing our individual experiences with one another.

By sponsoring TEDxIndianapolis, your organization will be known as a thought leader, helping spread inventive ideas throughout the community. It's like underwriting the future, giving those with ideas a torch to lead the way.
